DATA USER SERVICES DIVISION

Michael G. Garland, Chief

Acknowledgments

Many persons participated in the diverse activities of the 1980 census. These acknowledgments generally reflect staff during the post-census data publication process. The Bureau was guided by Director, **Bruce Chapman**, and Deputy Director, **C.L. Kincannon**. Primary direction of the data publication program was performed by **William P. Butz**, Associate Director for Demographic Fields, assisted by **Peter A. Bounpane**, Assistant Director for Demographic Censuses, in conjunction with **Barbara A. Bailer**, Associate Director for Statistical Standards and Methodology, **Howard N. Hamilton**, Acting Associate Director for Information Technology, **James D. Lincoln**, then Associate Director for Administration, and **Stanley D. Moore**, Associate Director for Field Operations. The Director's staff was assisted by **Sherry L. Courtland**. Direction of the census enumeration and early processing activities was provided by **Vincent P. Barabba**, former Director; **Daniel B. Levine**, former Deputy Director; and **George E. Hall**, former Associate Director.

Responsibility for the overall planning, coordinating, processing, and publication of the 1980 census was in the Decennial Census Division under the direction of **Stanley D. Matchett**, Chief, assisted by **Rachel F. Brown** and **Roger O. Lepage**, Assistant Division Chiefs. The following Branch Chiefs were responsible for support services: **Donald R. Dalzell**, **H. Ray Dennis**, **Stephen E. Goldman**, **Dennis W. Stoudt**, and **Richard R. Warren**.

User services were provided by the Data User Services Division under the supervision of **Michael G. Garland**, Chief, and **Marshall L. Turner, Jr.**, and **Paul T. Zeisset**, Assistant Chiefs. This publication, and the computerized indexing system on which it is based, were developed by **Paul T. Zeisset**.

Responsibility for developing the population portion of the 1980 census questionnaire content and designing the tabulations was in the Population Division under the supervision of **Roger A. Herriot**, Chief, **Paula J. Schneider**, Staff Assistant for Census Programs, **Gordon W. Graen, Jr.**, **Nampee D. McKenney**, and **Arthur J. Norton**, Assistant Chiefs. Important contributions were made by the following Branch and Staff Chiefs, **Patricia A. Berman**, **Edward W. Fernandez**, **Philip N. Fulton**, **John M. McNeil**,

Martin O'Connell, **George F. Patterson**, **Thomas S. Scopp**, **Paul M. Siegel**, **Robert C. Speaker**, **James A. Weed**, and **Arno I. Winard**. Also contributing was **Cynthia M. Taeuber**.

Responsibility for developing the housing portion of the 1980 census questionnaire content and designing the tabulations was in the Housing Division, under the supervision of **Arthur F. Young**, Chief, **Leonard J. Norry**, Assistant Chief, and **William A. Downs**, Branch Chief; assisted by **Robert W. Bonnette**, **Theresa R. Boyd**, **Sherry A. Briscoe**, **Imelda M. Johnson**, and **Gregory K. Sprowls**.

Administration support was provided by the Administrative Services Division, **Robert L. Kirkland**, Chief, and **William C. Fanning**, Assistant Chief.

Computer processing was performed in the Computer Operations Division, **C. Thomas DiNenna**, Chief, **James E. Steed**, **George M. Bowden**, and **Joseph J. Sferrella**, Assistant Chiefs.

Questionnaire processing procedures were developed in the Decennial Processing Staff, **James S. Werking**, then Chief, under the direction of **Harry O'Haver**, then Assistant Chief. The clerical coding and microfilming of the sample questionnaires were performed at three decennial processing locations as follows: Data Preparation Division, **Don L. Adams**, Chief; Jeffersonville Processing Office, **Robert L. Kirkland**, then Processing Manager; New Orleans Processing Office, **Robert L. Allen**, Chief; and Laguna Niguel Processing Office, **Robert N. Scheller**, Chief.

Data collection activities were supervised in the Field Division by **Lawrence T. Love**, Chief, under the direction of **Richard Blass**, **Charles Hancock**, and **George T. Reiner**, Assistant Chiefs, with the assistance of the directors and assistant directors of the Bureau's regional offices.

Geographic programs and plans were developed in the Geography Division under the direction of **Joseph J. Knott**, **Robert W. Marx**, and **Silla G. Tomasi**, Assistant Chiefs, and **Donald I. Hirschfeld**.

Publications editing, design, composition, and printing procurement were performed by

the staff of the Publications Services Division, **Raymond J. Koski**, Chief; **Milton S. Andersen**, **Arlene C. Duckett**, and **Gerald A. Mann**, Branch Chiefs.

The Statistical Methods Division was largely responsible for weighting sample data and producing variance estimates. This work was supervised by **Charles D. Jones**, Chief; **Susan M. Miskura** and **Robert T. O'Reagan**, Assistant Chiefs. Important contributions were made by **David H. Diskin**, **Milton C. Fan**, **Thomas W. Harahush**, **Robert S. Jewett**, **J. Kim**, **Teresa A. Passalacqua**, **John H. Thompson**, and **Henry F. Wolman**.

The system design, technical specifications, assembly, and installation of the FOSDIC and Automated Camera Technology System were the responsibility of the Technical Services Division, **C. Thomas DiNenna**, Acting Chief, and **Robert J. Varson**, Branch Chief.

Many other persons participated in the various activities of the 1980 census. For a list of key personnel, refer to the *History of the 1980 Census of Population and Housing*, (PHC80-R2).

Introduction

This index shows you what data are available from the 1980 census in four series of computer tapes: Summary Tape Files (STF's) 1, 2, 3, and 4. These files present data for States, SMSA's, counties, places, census tracts, and other small areas.

This index consists of four parts:

- a key to geographic areas (pages 8 and 9), to help you determine which of the STF's include the type of geographic area you are interested in;
- a subject cross-reference (pages 11 to 20), to help you select appropriate terminology in searches through the index;
- the index (pages 21 to 31), with subjects arranged in alphabetic order and references to all of the tables in which each subject occurs; and
- table outlines for STF's 1, 2, 3 and 4 (pages 33 to 145) which allow you to see exactly what categories and universe are included.

GEOGRAPHIC AREAS

The typical request for data will have both geographic and subject dimensions. The Key to Geographic Areas explains the structure of STF's and their files and indicates which areas appear on each STF. For example, if you were looking for data on enumeration districts, figure 2 on page 8 would tell you to confine your search to STF's 1 and 3.

SELECTING TERMINOLOGY

An important step in most searches for particular data is the use of the subject cross-reference. That section tells you, for instance, that data on unemployment are found under "Labor Force Status", that citizenship data are indexed under "Nativity and Citizenship," or that data on person in the Armed Forces appear not only under "Armed Forces Status" but also under "Labor Force Status".

USING THE INDEX

In the index, each census variable is presented in alphabetic order, followed by references to every table in which it occurs. The index is designed to highlight every pair of variables. Thus a 3-way cross-tabulation of age, relationship, and sex would be indexed under Age x Relationship, Age x Sex, Relationship x Age, Relationship x Sex, Sex x Age, and Sex x Relationship.

Each table is identified by STF and table number (e.g., STF1:10). To conserve space, the usual space between "STF" and the STF number is omitted. Where more than one table in the same STF is listed, the STF designation is not repeated (e.g., STF3:75,83). Consecutive table numbers are shown as ranges (e.g., STF1:34-36).

A table number in parentheses represents something less than a full 2-way cross-classification of the variables shown: the table is restricted to only one category of one of the variables. For example, a table showing relationship for persons under 18 years old would be indexed under Age x Relationship and Relationship x Age, but the table number would be shown in this form: STF1: (17).

FINDING RACE, SPANISH ORIGIN, AND ANCESTRY DATA

Persons interested in race and Spanish origin data should take advantage of the fact that STF 2 tables beginning with "B", and STF 4 tables beginning "PB" or "HB" are repeated for race and Spanish origin groups (listed in

figure 1). Further, those same STF 4 tables are available for ancestry groups for certain geographic areas on STF's 4B and 4C (files A, B, and C within an STF are explained in the Key to Geographic Areas.) Thus, for example, in searching for all tables of age by race, look not only for that entry, but also for any age table with a "B", "PB", or "HB" prefix.

FIGURE 1 Race, Spanish-Origin, and Ancestry Groups Reported on STF's 2 and 4

The groups listed below are those for which characteristics data may be provided in "record B's" of STF's 2 and 4. Groups not underlined are not reported on STF's 2A and 4A, nor are they reported for selected small areas¹ on STF's 2B and 4B. In all cases, groups failing suppression criteria will not be shown for a particular area.

Total

Other (in STF 2) or Race, n.e.c. (in STF 4)²

Ancestry (not on STF 2):

English

French

German

Irish

Italian

Polish

Variable group 1⁴

Variable group 2⁴

Variable group 3⁴

Variable group 4⁴

¹ MCDs and CCDs with fewer than 2,500 inhabitants (STF's 2B and 4B) and places of 1,000 to 2,500 inhabitants (STF 2B only).

² Other Asian and Pacific Islanders, shown separately on STF 4, are included in the broad "Other" category on STF 2. "Race, n.e.c." (or Race, not elsewhere classified) is the label applied to sample data for the remaining other races after "Other Asian and Pacific Islanders" have been reassigned to the Asian and Pacific Islander major group.

³ These two groups are combined on STF 2, but shown separately on STF 4.

⁴ These ancestry groups vary from State-to-State, but are consistent for areas reported within State. For most States, they include the following multiple ancestry groups: English and other, Irish and other, German and other, and either Scottish and other or French and other.

USING THE TABLE OUTLINES

To confirm that desired data are available, look at the table outlines shown in the last section. Only here is it possible to determine whether desired data categories are actually present or whether the universe of the tabulation is appropriate to your needs. (If you are not familiar with reading table outlines in this form, see "How to Read Table Outlines" on page 7.)

Programmers will need additional information not shown in the table outlines, such as the location and size of each data item and the conditions under which data suppression may occur. This information is found in the "data dictionary" in STF technical documentation. The technical documentation for each STF is available for sale from the Data User Services Division, Customer Services Branch, Bureau of the Census, Washington, D.C. 20233.

STF 4 tables may appear to be out of alpha/numeric order. STF4:PA and PB tables precede STF4:HA and HB tables because that is the sequence of records on the tape.

For definitions of geographic and subject matter terms used in this index see the "Glossary", Part B in this Users' Guide series.

Examples on pages 4 to 6 illustrate the use of the various parts of this index step by step.

CHOOSING THE STF TO USE

You should be aware that data on STF's 3 and 4 are less precise than those on STF's 1 and 2. The first two STF's summarize data asked of every one (i.e. 100-percent counts). STF's 3 and 4 contain only estimates based on a sample of persons and housing units. The reliability of those estimates, which can be problematic for small numbers, is discussed in Chapter 6 of Part A "Text" in this Users' Guide series.

Another factor affecting your choice of files to work with is that STF's 2 and 4 involve rather large logical records and relatively complex structures. STF's 1 and 3 are usually much easier to work with, as well as less expensive to purchase.

AND IF YOU CANNOT FIND THE DATA HERE...

Don't give up finding the data you want in STF's 1 to 4 until you have thoroughly exhausted all alternate terms presented in the Subject Cross-Reference.

If the desired detail or crosstabulations are not available in STF's 1 to 4 and your geographic area of interest is fairly large, you may want to investigate STF 5. The geographic areas on STF 5 are shown in figure 2. Virtually all of the tables in STF 5 have counterparts in printed reports, but fewer geographic areas are summarized.

Another alternative is to use 1980 census public-use microdata samples. If you have confirmed that the 1980 census collected the subjects you want, and the area for which you need data has at least 100,000 inhabitants, you may be able to create the desired tabulations from a 5-percent (or smaller) sample of unaggregated records for unidentified individual persons and housing units on tape.

For data from the 1970 census of population and housing, see the *Index to 1970 Census Summary Tapes*, by Paul T. Zeisset, now out of print but available in libraries and for sale on microfiche from the Census Bureau's Data User Services Division.

An index to printed reports from the 1980 census is being published as a separate report in this Users' Guide series.

Using the Index: Step-by-Step Illustrations

Example 1: Find data to compare income level by race in Smithville, a small city of 2,330 residents.

Step 1. STATE YOUR DATA REQUIREMENTS

State your data requirements as completely as possible. List the key words and phrases. In example 1 the keywords are income and race. We also need to know the type of geographic area: a place of 2,330.

Step 2. USE THE KEY TO GEOGRAPHIC AREAS (pages 8 to 9)

Use the key to geographic areas to determine which STF's have data for the type of geographic area in which you are interested.

Excerpt from figure 2, page 8.

	STF 1	STF 2	STF 3	STF 4	STF 5
U.S., regions, divisions	C	C	C	C	C
States	A,B,C	B,C	A,C	B,C	A,C
SCSA's	C	B,C	C	B,C	C
SMSA's	B,C	A,B,C	C	A,B,C	A,C
Urbanized areas	C	B,C	C	B,C	
Counties:	A,B,C	A ¹ ,B,C	A,C	A ¹ ,B,C	A ²
Rural population by county	(¹)	B,C	(¹)	B,C	
Farm population by county				B,C	
Places (by pop. size):					
Under 1,000	A,B		A		
1,000 to 2,500	A,B	B	A		
2,500 to 10,000	A,B	B	A	B	
10,000 to 50,000	A,B,C	A ¹ ,B,C	A,C	A ¹ ,B,C	
50,000 and over	A,B,C	A,B,C	A,C	A,B,C	A ¹
County subdivisions:					
MCD's in 11 States ⁶	A,B,C ⁷	B,C ⁷	A,C ⁷	B,C ⁷	A ²
MCD's in 9 States ⁸	A,B	B	A	B	
MCD's in 10 States & C CD's in 20 ⁹	A	B	A	B	
Census tracts	A,B	A	A	A	
Block numbering areas	A,B		A		
Block groups	A		A		

Comment: Figure 2 indicates that places of 1,000 to 2,500 appear on one or more files of STF's 1, 2, and 3, so any indexed tables other than in STF 4 will include data for Smithville.

Step 3. USE THE SUBJECT CROSS-REFERENCE (pages 11 to 20)

Look up each key word or phrase in the Subject Cross-Reference. Think up alternative terms if the ones you seek are not there. Make a note of every "see" or "see also" reference that seems relevant.

Excerpt from Subject Cross-Reference, page 14.

INCOME IN 1979 - see also: Income of Family in 1979; Income of Household in 1979; Income of Unrelated Individual in 1979; Income Type in 1979.

INCOME OF FAMILY IN 1979 -

INCOME OF HOUSEHOLD IN 1979 - see also: Rent as a Percentage of Household Income in 1979, Gross; Value-Household Income in 1979 Ratio.

INCOME OF HOUSEHOLD IN 1979, UNEARNED - see also: Income Type in 1979.

Excerpt from Subject Cross-Reference, page 17.

RACE - Note: Every STF 2 table with a "B" prefix and STF 4 table with a "PB" or "HB" prefix is repeated for up to 15 race groups groups; see page 2. See also: Ancestry; Race of Householder.

RACE OF HOUSEHOLDER - See also the note for Race.

Comment: The entry for income in 1979 suggests that we also look under Income of Family in 1979 and Income of Household in 1979. The entry for Race indicates that we should look for table numbers beginning with B, PB, or HB, even if Race is not specifically listed. It also cross-references Race of Householder.

Step 4. USE THE INDEX

(pages 21 to 31)

Look in the Index for the terms you found in the Subject Cross-Reference. Record each table number listed for the STF's you selected in step 2.

Excerpt from Index, pages 23-24.

INCOME IN 1979

x Age. STF4:PB100
 x Inmate Status. STF3:84-85
 x Relationship. STF4:PB100-101
 x Sex. STF4:PB96-98
 x Weeks Worked in 1979 and Usual Hours
 Worked Per Week in 1979 STF4:PB96-98

INCOME OF FAMILY IN 1979. STF3:73-74

x Age of Householder. STF4:PB82-84
 x Family Type. STF4:PB85-87
 x Own Children of Selected Ages, Presence of
 STF4:PB85-87
 x Persons in Family. STF4:PA23-24, PB91
 x Race of Householder. STF3:75, 77
 x Spanish Origin of Householder. . . . STF3:(76), (78)
 x Workers in Family in 1979, Number of . . STF3:80,
 STF4:PB88-90

INCOME OF HOUSEHOLD IN 1979 STF3:68-70

x Age of Householder STF4:PB75, HA53-54
 x Age of Householder and Spouse. . . . STF4:(HA55-57)
 x Income Type in 1979. STF3:72, STF4:PB77, (PB80)
 x Owner Costs as a Percentage of Household
 Income in 1979, Selected Monthly. . . . STF3:139,
 STF4:HB52
 x Persons in Household STF4:HA53-57, HB45
 x Plumbing Facilities. STF4:HA57
 x Rent, Gross. STF4:HB48
 x Rent as a Percentage of Household Income
 In 1979, Gross. STF3:132, STF4:HB49
 x Selected Conditions. STF4:HA53-55
 x Tenure STF3:141, STF4:PB71-73, HA22, HA55-57,
 HB42-44, (HA53-54)
 x Value. STF4:HB47
 x Vehicles Available STF4:HA22
 x Year Structure Built STF4:HA56

Comment: There are no entries under Income in 1979 by Race nor Income of Household in 1979 by Race of Householder. There are 2 entries for Income of Family in 1979 by Race of Householder: STF 3, tables 75 and 77. We can also look for any other income entries with a B, PB, or HB in the table number. Quite a few are present but all are STF 4 tables, and we know from step 2 that STF 4 does not include data for places as small as Smithville.

Step 5. USE THE TABLE OUTLINES

(pages 33 to 145)

Once you have found the specific tables, determine whether the categories meet your needs. Make sure the universe includes the population you want to study. Look up applicable footnotes and refer to the Users' Guide "Glossary" for concept definitions.

Excerpt from STF 3 Table Outlines,
 pages 68-69.

75. RACE (4) BY FAMILY INCOME IN 1979 (9) 1361

Universe: Families with Householder Of Specified Races 11/

White:

Less than \$5,000
 \$5,000 to \$7,499
 \$7,500 to \$9,999
 \$10,000 to \$14,999
 \$15,000 to \$19,999
 \$20,000 to \$24,999
 \$25,000 to \$34,999
 \$35,000 to \$49,999
 \$50,000 or more

Black:

(Repeat Family Income In 1979)

American Indian, Eskimo,
 and Aleut:
 (Repeat Family Income
 In 1979)

Asian and Pacific Islander: 4/
 (Repeat Family Income
 In 1979)

77. AGGREGATE FAMILY INCOME IN 1979 BY RACE OF HOUSEHOLDER (5) 12/ 151

Universe: Families 11/

Total**White****Black**

American Indian, Eskimo, and
 Aleut

Asian and Pacific Islander 4/

Comment: The universe of table 75 does not include all families; by consulting the glossary or another table with more race categories we find that "Other (Race n.e.c.)" is the missing category. Thus, to compare the income distribution for families of one race to the income distribution for all families, we need to obtain the latter from another table (e.g., look at STF 3:73).

Table 77 provides aggregates to calculate mean (average) family income by race. For instance, to obtain mean family income for Blacks, divide the third cell in STF 3:77 by the number of Black families (derived by adding the counts of Black families in table 75, cells 10 to 18).

USING THE INDEX: Two Additional Examples

Example 2

Step 1. Desired data: Children in poverty by census tract.

Step 2. Figure 2 shows us that census tract data are available on one or more files of each of STF's 1 to 4.

Step 3. The Subject Cross-Reference entry for children (page 12) refers us to Relationship; Age; Children Ever Born; Own Children of Selected Ages, Presence of; and Related Children of Selected Ages, Presence of. Poverty Status in 1979 is listed (page 17), but the cross-reference to Income Deficit in 1979 is not relevant to this problem. Although the cross-reference is not explicit, we can also see that related data may appear under Poverty Status in 1979 and Receipt of Public Assistance Income in 1979, and under Poverty Status in 1979 and Receipt of Social Security Income in 1979, which are listed right below Poverty Status in 1979.

Step 4. Since there is more than one census variable identifying children, but all poverty variables appear together, check first under Poverty Status in 1979 (page 26). Poverty Status in 1979 by Age is in 5 tables; by Related Children of Selected Ages, Presence of, appears in another 4; by Relationship in 3 tables; and by Relationship and Age in 2 tables. There is also an entry under Poverty Status in 1979 and Receipt of Social Security Income in 1979 by Age.

Step 5. With so many tables to choose from we might first decide to look at only STF 3 tables, because STF 3 is easier to use than STF 4. Alternatively, we could give preference to STF 4 tables since STF 4 has totals for split tracts and STF 3 does not. (Study figure 3 on page 9 for this kind of information).

Upon examination of the table outlines we see that only one of the Poverty Status by Age entries is of any relevance--STF4:PB114. All of the other tables deal only with higher age brackets. Similarly, the listed Relationship tables are not relevant because "children" is not one of the Relationship categories. The

two tables by Relationship and Age (STF3:94 and STF4:PB117) do give data for related children. The tables by Related Children of Selected Ages, Presence of, are all relevant, except that they provide counts of poor families with children rather than counts of poor children, which are found in the Relationship and Age tables. As a matter of fact, the two tables can be interrelated to yield the average number of related children per poor family, and that figure can be compared to that for other families.

Example 3

Step 1. Desired data: Presence of plumbing facilities by crowding for owners and renters by block.

Step 2. Only STF 1 (file B) contains block data.

Step 3. The Subject Cross-Reference refers us from crowding to Persons Per Room (page 12) and from owner/renter status to Tenure (page 16). Plumbing Facilities is listed (page 17), with cross-references also to Bathrooms and Water, Source of.

Step 4. The index is not explicitly designed to index three variables at once, but it is not hard to use it that way. First we are looking only for STF 1 tables. Plumbing Facilities (page 26) is crosstabulated by Persons Per Room in STF1:(48) and (51) and by Tenure in STF1:(48). Thus STF1:(48) involves all 3 variables, though the parentheses warn us that something less than a complete cross-tabulation is present. (There are no STF 1 entries under Bathrooms or Water, Source of.)

Step 5. The outline for STF1:48 (page 37) shows Tenure for crowded units lacking plumbing, only 2 cells of the 2 x 2 x 2 crosstabulation we had hoped for. Still, other index entries show Tenure by Persons Per Room in STF1:37 and Tenure by Plumbing Facilities in STF1:47, and with some resourceful subtraction we can fill the cells of our desired 2 x 2 x 2 matrix. (Three-way crosstabulations of these variables which do not require subtraction can be found in STF's 2 and 4, but data in these STF's are not provided below the tract level.)

How to Read Table Outlines

The table outlines are an abstract representation of the data cells in an STF table or matrix.

The first line gives the table number and each variable name, followed, in parentheses, by the number of categories shown for the variable. At the end of the line, within brackets, is the total number of data cells in the table, which is also the result of multiplying together the number of categories for each variable (e.g., $5 \times 2 = 10$).

The universe is the type of entities counted in the table, generally persons, families, households or housing units. Any further wording indicates that the table is restricted in its coverage to only certain categories of particular variables. Those restricting variables may or may not be the same as those on the title line. In the example, the universe is restricted to persons "with unemployment in 1979", a category of Labor Force Status in 1979.

The categories are listed then in their actual sequence on the tape. A line ended by a colon does not correspond to a single data cell, but rather is a heading for the lines that follow. For instance, although the word "total" appears in the example, there is no one cell which gives the total number of persons 16 years and over with unemployment. To obtain that total you must add together the numbers for male and female. As always, careful attention to concept definitions, as presented in the "Glossary" (Part B in this Users' Guide series), is appropriate.

Some tables cite "aggregate" in the title. In these tables the unit being counted changes from persons or households to weeks, years or dollars, as cited in the variable name. These tables are most frequently used to derive averages. For instance, by dividing the cells in table 64 by corresponding cells in table 62 above (the first two cells), it is possible to generate the mean number of weeks unemployed in 1979 for those males, females or total persons who were unemployed for any time during 1979.

62. RACE (5) BY SEX (2) [10]

Universe: Persons 16 Years And
Over With Unemployment In 1979

Total:
Male
Female

White:
(Repeat Sex)

Key to Geographic Areas

Each STF constitutes a particular set of data tables for specific types of areas. The records for all areas on a given STF have the same format and subject contents.

Each STF has three or more files (e.g., "A", "B", "C") which are identical in record contents, but which differ in the types of geographic areas reported, as spelled out in figures 2 and 3 in this section. Figure 2 is a quick reference to help you locate which files have data for a type of geographic area. Figure 3 then illustrates the structure of the major files. That structure can be important. The indentations in figure 3 indicate hierarchical organization. For instance, both STF 1A and STF 2A feature summaries for tracts, but the indentation indicates that they are organized within higher level entities. Since tracts may cross place or MCD boundaries, the summary presented initially is only for that part of the tract within a place and/or MCD. The chart shows that STF 2A also includes totals for split tracts, while STF 1A does not.

Note that the files labelled "C" are nationwide files. All others are issued by State.

STF's 1A, 1C, 3A, and 3C are available on microfiche as well as on computer tape.

FIGURE 2 Areas Summarized in 1980 STF's

	STF 1	STF 2	STF 3	STF 4	STF 5
U.S., regions, divisions	C	C	C	C	C
States	A,B,C	B,C	A,C	B,C	A,C
SCSA's	C	B,C	C	B,C	C
SMSA's	B,C	A,B,C	C	A,B,C	A,C
Urbanized areas	C	B,C	C	B,C	
Counties:	A,B,C	A ¹ ,B,C	A,C	A ¹ ,B,C	A ²
Rural population by county	(³)	B,C	(³)	B,C	
Farm population by county				B,C	
Places (by pop.size):					
Under 1,000	A,B		A		
1,000 to 2,500	A,B	B	A		
2,500 to 10,000	A,B	B	A	B	
10,000 to 50,000	A,B,C	A ⁴ ,B,C	A,C	A ⁴ ,B,C	
50,000 and over	A,B,C	A,B,C	A,C	A,B,C	A ⁵
County subdivisions:					
MCD's in 11 States ⁶	A,B,C ⁷	B,C ⁷	A,C ⁷	B,C ⁷	A ²
MCD's in 9 States ⁸	A,B	B	A	B	
MCD's in 10 States & CCD's in 20 ⁹	A	B	A	B	
Census tracts	A,B	A	A	A	
Block numbering areas	A,B		A		
Block groups	A		A		
Blocks	B				
Enumeration districts	A,B		A		
ZIP code areas			(¹⁰)		
Congressional districts:					
96th/97th Congress	A,C		A,C		
98th Congress	D		D		
School districts	F		F		
Neighborhoods (officially recognized)	G		G		
American Indian reser./ Alaska Native villages	(³)	B,C	(³)	B,C	

The STF 5 column is shaded because STF 5 is not otherwise included in this index.

¹ Includes only counties in tracted areas.

² If 50,000 or more inhabitants.

³ Derivable by addition of component ED's or BG's.

⁴ Includes only places in tracted areas.

⁵ Also include SMSA central cities with fewer than 50,000 inhab.

⁶ States in the Northeast Region plus Michigan and Wisconsin.

⁷ Only MCD's with 10,000 or more are included in the 'C' files.

⁸ Illinois, Indiana, Kansas, Minnesota, Missouri, Nebraska, North Dakota, Ohio, and South Dakota.

⁹ Includes States not covered in footnotes 6 and 8.

¹⁰ The ZIP code area file (STF 3B) was funded by outside organizations which are its primary distributors until September 1984 when the Census Bureau will begin selling it.

FIGURE 3 Geographic Structure of 1980 STF's 1 to 4*

STF's	FILE A (State-by-State Release)	FILE B (State-by-State Release)	FILE C (Nat'l. Files-Follow Release of All States for Each STF)
STF 1	State County MCD or CCD Place ¹ or remainder of MCD/CCD Tract ¹ or block numbering area (BNA) ¹ if present BG ¹ or ED Place (alphabetic sequence within State) Congressional district	State SMSA ² or remainder of State County ³ MCD (20 Northern States only) ⁴ Place ¹ or remainder Tract ¹ or block numbering area (BNA) ¹ if present Block ¹ or ED	US Region Division State SCSA ⁶ SMSA ⁶ Urbanized area County Place of 10,000+ Town/township of 10,000+ (11 States only) Congressional district
STF 2	SMSA ² or tracted remainder of State County ³ Place of 10,000+ ¹ or remainder of county Tract ¹ Totals for split tracts	State Components ⁵ SCSA ² Urban/rural components SMSA ² Urban/rural components Urbanized area ² County Rural component MCD or CCD Place of 1,000+ American Indian Reservation/ Alaska Native Village County components	US Components ⁵ Region Components ⁵ Division Components ⁵ State Components ⁵ <hr/> SCSA ⁶ SMSA ⁶ <hr/> Urbanized Area ⁶ County Rural component <hr/> Place of 10,000+ Town/township of 10,000+ (11 States only) American Indian Reservation/Alaska Native Village County components
STF 3	Same as STF 1A	ZIP Code areas ⁷	Same as STF 1C
STF 4	Same as STF 2A	Same as STF 2B, except for: (1) addition of rural farm summaries for States, SCSA's, SMSA's and counties; and (2) only places of 2,500+ are included	Same as STF 2C, with the addition of rural farm summaries for States, SCSA's, SMSA's and counties

*This chart excludes STF's 1D and 3D (Congressional Districts of the 98th Congress), STF 1E (former CCD's in North Dakota), STF's 1F and 3F (school districts), and STF's 1G and 3G (officially recognized neighborhoods).

¹A data summary for only part of an area will be shown if the area is subdivided by higher level geography. For example, in STF 1A, the summary for a place that crosses county or MCD lines would be presented in two or more parts.

²Summaries for SCSA's, SMSA's, and UA's crossing State boundaries apply only to that part of the area within the State, except in File C.

³In New England, where an SMSA may cover only part of a county, this summary will be for only that part of the county in the SMSA.

⁴This summary level will be absent for the 20 States with CCD's and the 10 States whose MCD's are not recognized for revenue-sharing purposes (i.e., all States in the South and West regions plus Iowa). In these States, places will be sequenced within county, followed by a record for the remainder of the county. In the STF 1B for Puerto Rico MCD-equivalent records will be present.

⁵Component summaries for United States, region, division, and State:

Urban
Inside urbanized areas
Central cities
Urban fringe

Outside urbanized areas
Places of 10,000 or more
Places of 2,500 to 10,000
Rural
Rural places of 1,000 to 2,500
Other rural
Rural farm (present on STF 4 only)
Inside SMSA's
Urban
Central cities
Not in central cities
Rural
Outside SMSA's
Urban
Rural

⁶ Following the summary for each SCSA, SMSA, or UA, the portions of each area within each applicable State are presented. On STF 2, SCSA and SMSA records are followed by urban and rural component summaries.

⁷This file was prepared as a special tabulation for a private company representing a consortium of firms. The file also is available from the Census Bureau, but, prior to September 1984, only for a prorated share of the original cost of tabulating and producing the file for all States. Contact Customer Services for further information.

For data tabulated
from the sample, excludes
those persons who have a
write-in entry of an
Asian and Pacific Islander
group in the "Other"
category.

4 "Asian and Pacific
Islander," in the 100-
percent tabulations, in-
cludes "Japanese,"
"Chinese," "Filipino,"
"Korean," "Asian Indian,"
"Vietnamese," "Hawaiian,"
"Guamanian," and "Samoaan,"
"Asian and Pacific
Islander," in sample
tabulations, includes
the groups listed above
and those persons who
have a write-in entry
of an Asian or Pacific
Islander group in the
"Other" category.

5 Relatives include house-
holder, spouse, and the
questionnaire categories:
"Son/daughter," "Brother/
sister," "Father/mother,"
and "Other relative." Tabulations of "Other
relatives" include all
categories not shown
separately in the
matrix.

6 "Nonrelatives" include
the questionnaire cate-
gories: "Roomer,
boarder," "Partner,
roommate," "Paid em-
ployee," and "Other
nonrelative." Tabula-
tions of "Nonrelatives"
include all categories
not shown separately
in the matrix.

7 Tabulations of
"Persons in house-
hold" based on 100-
percent data by defini-
tion are the same as
tabulations of "Persons
in unit." The phrase
"Persons in household"
is used unless the
matrix is stratified
by a housing item such
as tenure, plumbing
facilities, etc., in
which case, the phrase
"Persons in unit" is used.
Tabulations of "Persons
in household" and "Persons
in unit" based on sample
data are not necessarily
the same because of
differences in the pro-
cedures used to inflate
sample population and
housing data.

FOOTNOTE SECTION

- 1 The count of households in the complete-count tabulations by definition equals the number of occupied housing units. For this documentation the term "Household" is used unless the matrix is stratified by a housing item such as tenure, plumbing facilities, etc., in which case, the term "Occupied housing unit" is used.
- 2 Vacant seasonal/migratory units are excluded from all other tabulation matrices.
- 3 For data tabulated on a 100-percent basis, includes all persons in the category "Other."

8 A "Child of householder" Includes any son, daughter, stepchild, or adopted child of the householder. An "Own child of householder" is a never-married child under 18 years of age who is a son, daughter, stepchild, or adopted child of the householder. "Related children" include not only own children but also all other family members, regardless of marital status, who are under 18 years old, except the householder or spouse. Foster children are included in the "Nonrelative" category.

9 Vacant housing units Include the questionnaire categories: "For rent," "For sale only," "Rented or sold, not occupied," "Held for occasional use," and "Other vacant." Tabulations of "other vacants" include all categories not shown separately in the matrix.

10 This aggregate, along with the relevant count, will permit the computation of a mean. For example, the aggregate value for specified owner-occupied noncondominium units will yield the mean value when divided by the count of specified owner-occupied noncondominium units, and the aggregate rooms for occupied and vacant year-round units divided by the count of occupied and vacant year-round units yields mean rooms. (See footnote 14 prior to computing mean value or price asked).

11 Value and price asked are tabulated separately for noncondominium and condominium units.

The noncondominium value distribution is restricted to certain kinds of "owner-occupied" units; the noncondominium price asked distribution is restricted to certain kinds of "vacant-for-sale only" units. The following are excluded from the tabulations on value and price asked for noncondominium units:

- a. Units at an address with two or more units
- b. Units on 10 or more acres
- c. Units with a commercial establishment or medical office on the property
- d. Mobile homes or trailers

The condominium value distribution is tabulated for all "owner-occupied" condominium units; the condominium price asked distribution is tabulated for all "vacant-for-sale only" condominium units.

12 Contract rent is tabulated for all "renter-occupied" units except one-family houses on a property of 10 or more acres. Rent asked is tabulated for all "vacant-for-rent" units except one-family houses on a property of 10 or more acres. Units tabulated in the "No Cash Rent" category are all occupied housing units reported as "No Cash Rent" except one-family houses on 10 or more acres.

13 Lacking complete plumbing (facilities) for exclusive use includes: Complete plumbing (facilities) but also used by another household, some but not all plumbing facilities, or no plumbing facilities.

14 Multiply the aggregate value and price asked by \$250 to obtain the true value or price asked. The tabulation was scaled by a factor of \$250 for tally purposes.

15 Allocations of marital status for persons under 15 years old are not included in "Persons with one or more items allocated."

16 "Year-round housing units with one or more housing items allocated" includes allocations of "Units at address," "Access," "Plumbing facilities," "Rooms," "Tenure," "Condominium Status," "Acreage of property," "Commercial establishment or medical office," "Value" or "Price asked," "Contract rent" or "Rent asked," "Vacancy Indicator," "Vacancy status," "Boarded up status," and "Duration of vacancy."

the first of the great principles of the American Revolution, the right of the people to alter or to abolish their government, and to institute a new one, whensoever they shall think it necessary for their safety and happiness. This principle was the foundation of the American Republic, and it was upon this principle that the American people have ever since acted. They have not only altered their government, but they have also abolished it, and they have instituted a new one, whensoever they have thought it necessary for their safety and happiness.

The second of the great principles of the American Revolution, the right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, was also a principle upon which the American people have ever since acted. They have not only secured their persons, houses, papers, and effects, but they have also secured the rights of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures.

The third of the great principles of the American Revolution, the right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, was also a principle upon which the American people have ever since acted. They have not only secured their persons, houses, papers, and effects, but they have also secured the rights of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures.

The fourth of the great principles of the American Revolution, the right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, was also a principle upon which the American people have ever since acted. They have not only secured their persons, houses, papers, and effects, but they have also secured the rights of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures.

The fifth of the great principles of the American Revolution, the right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, was also a principle upon which the American people have ever since acted. They have not only secured their persons, houses, papers, and effects, but they have also secured the rights of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures.

The sixth of the great principles of the American Revolution, the right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, was also a principle upon which the American people have ever since acted. They have not only secured their persons, houses, papers, and effects, but they have also secured the rights of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures.

The seventh of the great principles of the American Revolution, the right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, was also a principle upon which the American people have ever since acted. They have not only secured their persons, houses, papers, and effects, but they have also secured the rights of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures.

A63. ALLOCATION OF RELATIONSHIP (2) [2]

Universe: Persons In Households
Who Were Not Substituted But
For Whom Relationship Was
Allocated

Allocated in consistency edit
Allocated from 1980 census
distribution

A64. ALLOCATION OF SEX (2) [2]

Universe: Persons In Households
Who Were Not Substituted But
For Whom Sex Was Allocated

Allocated in consistency edit
Allocated from 1980 census
distribution

A65. ALLOCATION OF RACE (3) [3]

Universe: Persons In Households
Who Were Not Substituted But
For Whom Race Was Allocated

Allocated from person in same
household:
From householder or rela-
tive of householder
From nonrelative of house-
holder
Allocated from 1980 census
distribution

A66. ALLOCATION OF ORIGIN (3) [3]

Universe: Persons In Households
Who Were Not Substituted But
For Whom Origin Was Allocated

Allocated from person in same
household:
From householder or
relative of householder
From nonrelative of
householder
Allocated from 1980 census
distribution or from pre-
1980 census distribution

A67. PERSONS IN HOUSEHOLDS WHO WERE
NOT SUBSTITUTED BUT FOR WHOM
AGE WAS ALLOCATED FROM 1980
CENSUS DISTRIBUTION [1]

A68. ALLOCATION OF MARITAL STATUS (2) [2]

Universe: Persons In Households
15 Years And Over Who Were Not
Substituted But For Whom
Marital Status Was Allocated

Allocated in consistency edit
Allocated from 1980 census
distribution

A69. ALLOCATION OF INMATE STATUS (2) [2]

Universe: Persons In Group
Quarters Who Were Not
Substituted But For Whom
Inmate Status Was Allocated

Allocated from other person in
same group quarters
Allocated as "Other in group
quarters"

A70. PERSONS IN GROUP QUARTERS WHO
WERE NOT SUBSTITUTED BUT FOR
WHOM SEX WAS ALLOCATED FROM
OTHER PERSON IN SAME GROUP
QUARTERS OR FROM PRE-1980
CENSUS DISTRIBUTION [1]

A71. ALLOCATION OF RACE (2) [2]

Universe: Persons In Group
Quarters Who Were Not
Substituted But For Whom
Race Was Allocated

Allocated from other person in
same group quarters
Allocated from pre-1980 census
distribution

A72. ALLOCATION OF ORIGIN (2) [2]

Universe: Persons In Group
Quarters Who Were Not Sub-
stituted But For Whom Origin
Was Allocated

Allocated from 1980 census
distribution
Allocated from pre-1980 census
distribution

A73. ALLOCATION OF AGE (2) [2]

Universe: Persons In Group
Quarters Who Were Not Sub-
stituted But For Whom Age
Was Allocated

Allocated from other person in
same group quarters
Allocated from pre-1980 census
distribution

A74. PERSONS IN GROUP QUARTERS
15 YEARS AND OVER WHO
WERE NOT SUBSTITUTED BUT
FOR WHOM MARITAL STATUS WAS
ALLOCATED FROM 1980 CENSUS
DISTRIBUTION [1]A75. ALLOCATION OF RACE (2) BY
ALLOCATION OF ORIGIN (2) BY
ALLOCATION OF RELATIONSHIP,
SEX, AGE, AND MARITAL
STATUS (16) [64]

Universe: Persons Not
Substituted

Race not allocated:

Origin not allocated:

None of the four char-
acteristics--relation-
ship, sex, age, and
marital status--was
allocated

Only one of the four was
allocated:

Relationship

Sex

Age

Marital status

Two of the four were
allocated:

Relationship and sex

Relationship and age

Relationship and marital
status

Sex and age

Sex and marital status

Age and marital status

Three of the four were
allocated:

Relationship, sex, and
age

Relationship, sex, and
marital status

Relationship, age, and
marital status

Sex, age, and marital
status

All four were allocated

Origin allocated:

(Repeat Allocation of
Household Relationship,
Sex, Age, and Marital
Status)

Race allocated:

(Repeat Allocation of Origin
by Allocation of House-
hold Relationship, Sex,
Age, and Marital Status)

NOTE: In tabulation A75, persons under
15 years old with an assigned
marital status of "single" (i.e.,
never married) are tallied as
having an allocation in marital
status.

and over

B45. HOUSEHOLDS SUBSTITUTED [1]

FOOTNOTE SECTION

- 1 The count of households in the complete-count tabulations by definition equals the number of occupied housing units. For this documentation the term "Household" is used unless the matrix is stratified by a housing item such as tenure, plumbing facilities, etc., in which case, the term "Occupied housing unit" is used.
- 2 "Asian and Pacific Islander" in 100-percent tabulations, includes "Japanese," "Chinese," "Filipino," "Korean," "Asian Indian," "Vietnamese," "Hawaiian," "Guamanian," and "Samoan." "Asian and Pacific Islander," in sample tabulations, includes the groups listed above and those persons who have a write-in entry of an Asian and Pacific Islander group in the "Other" category.
- 3 For data tabulated on a 100-percent basis, includes all persons in the category "Other." For data tabulated from the sample, excludes those persons who have a write-in entry of an Asian and Pacific Islander group in the "Other" category.

- 4 Vacant seasonal/migratory units are excluded from all matrices except as noted specifically in the documentation.
- 5 This matrix can be used to derive data based on the 1970 "household head" concept. 1980 householders differ from 1970 household heads primarily where the wife in a married-couple family was listed as the "person in column 1" on the questionnaire. In 1970 the husband was automatically assumed to be the "head" of such a family. Therefore, to compute "age of head" for married-couple families add the distribution of male householders to the distribution of male spouses.
- 6 Tabulations of "Persons in household" based on 100-percent data by definition are the same as tabulations of "Persons in Unit." The phrase "Persons in household" is used unless the matrix is stratified by a housing item such as tenure, plumbing facilities, etc., in which case the phrase "Persons in unit" is used. Tabulations of "Persons in households" and "Persons in unit" based on sample data are not necessarily the same because of differences in the procedures used to inflate sample population and housing data.
- 7 Lacking complete plumbing (facilities) for exclusive use includes: Complete plumbing (facilities) but used by another household, some but not all plumbing facilities, or no plumbing facilities.
- 8 This aggregate, along with the relevant count, will permit the computation of a mean. For example, the aggregate value for specified owner-occupied noncondominium units will yield the mean value when divided by the count of specified owner-occupied noncondominium units, and the aggregate rooms for occupied and vacant year-round units divided by the count of occupied and vacant year-round units yields mean rooms. (See footnote 13 prior to computing mean value or price asked.)
- 9 Households may be counted more than once in this tabulation.
- 10 "Nonrelatives" include the questionnaire categories: "Roomer, boarder," "Partner, roommate," "Paid employee," and "Other non-relative." Tabulations of "Nonrelatives" include all categories now shown separately in the matrix.
- 11 Value and price asked are tabulated separately for noncondominium and condominium units.
- The noncondominium value distribution is restricted to certain kinds of "owner-occupied" units; the noncondominium price asked distribution is restricted to certain kinds of "vacant-for-sale-only" units. The following are excluded from the tabulations on value and price asked for noncondominium units:
- Units at an address with two or more units
 - Units on 10 or more acres
 - Units with a commercial establishment or medical office on the property
 - Mobile homes or trailers
- The condominium value distribution is tabulated for all "owner-occupied" condominium units; the condominium price asked distribution is tabulated for all "vacant-for-sale-only" condominium units.
- 12 Contract rent is tabulated for all "renter occupied" units except one-family houses on a property of 10 or more acres. Rent asked is tabulated for all "vacant-for-rent" units except one-family houses on a property of 10 or more acres. Units tabulated in the "No Cash Rent" category are all occupied housing units reported as "No Cash Rent" except one-family houses on 10 or more acres.
- 13 Multiply the aggregate value and price asked by \$250 to obtain the true value or price asked. The tabulation was scaled by a factor of \$250 for tally purposes.
- 14 Vacant housing units include the questionnaire categories: "For rent," "For sale only," "Rented or sold, not occupied," "Held for occasional use," and "Other vacant." Tabulations of "Other vacants" include all categories not shown separately in the matrix.
- 15 A "Child of householder" includes any son, daughter, stepchild, or adopted child of the householder. An "Own child of householder" is a never-married child under 18 years of age who is a son, daughter, stepchild, or adopted child of the householder. "Related children" include not only own children but also other family members, regardless of marital status, who are under 18 years old, except the householder or spouse. Foster children are included in the "Nonrelative" category.

-
- 16 Relatives include householder, spouse and the questionnaire categories: "Son/daughter," "Brother/sister," "Father/mother," and "Other relative." Tabulations of "Other relatives" include all categories not shown separately in the matrix.
- 17 Householders and spouses must be 15 years old or over.
- 18 Family households must be 2 or more persons; the category of "1 person" in family households will always contain a zero.
- 19 In this matrix, persons are classified by the race and Spanish origin of the householder.
- 20 Allocations of marital status for persons under 15 years old are not included in "Persons with one or more items allocated."
- 21 "Year-round housing units with one or more housing items allocated" include allocations of "Units at address," "Access," "Plumbing facilities," "Rooms," "Tenure," "Condominium status," "Acreage of property," "Commercial establishment or medical office," "Value" or "Price asked," "Contract rent" or "Rent asked," "Vacancy indicator," "Vacancy status," "Boarded up status," and "Duration of vacancy."
- 22 In this matrix, "With cash rent" and "No cash rent," are presented for all renter-occupied housing units. Contract rent is tabulated for specified renter-occupied housing units (see footnote 12).

Total
White
Black
American Indian, Eskimo, and Aleut
Asian and Pacific Islander 4/

144. OCCUPIED HOUSING UNITS WITH HOUSEHOLDER OF SPANISH ORIGIN WITH COMPLETE PLUMBING FACILITIES FOR EXCLUSIVE USE 11/ 37/ 111

145. RACE OF HOUSEHOLDER (5) 151

Universe: Occupied Housing Units With Complete Plumbing Facilities For Exclusive Use And Year Structure Built 1939 Or Earlier 11/ 37/ 151

Total
White
Black
American Indian, Eskimo, and Aleut
Asian and Pacific Islander 4/

146. OCCUPIED HOUSING UNITS WITH HOUSEHOLDER OF SPANISH ORIGIN WITH COMPLETE PLUMBING FACILITIES FOR EXCLUSIVE USE AND YEAR STRUCTURE BUILT 1939 OR EARLIER 11/ 37/ 111

147. RACE OF HOUSEHOLDER (5) [5]

Universe: Occupied Housing Units With Complete Plumbing Facilities For Exclusive Use And With 1.01 Persons Per Room Or More 11/ 37/

Total
White
Black
American Indian, Eskimo,
and Aleut
Asian and Pacific Islander 4/

148. OCCUPIED HOUSING UNITS WITH HOUSEHOLDER OF SPANISH ORIGIN WITH COMPLETE PLUMBING FACILITIES FOR EXCLUSIVE USE AND WITH 1.01 PERSONS PER ROOM OR MORE 11/ 37/ 111

149. RACE OF HOUSEHOLDER (5) [5]

Universe: Occupied Housing Units With Complete Plumbing Facilities For Exclusive Use And Lacking Central Heating Equipment 11/ 36/ 37/

Total
White
Black
American Indian, Eskimo,
and Aleut
Asian and Pacific Islander 4/

150. OCCUPIED HOUSING UNITS WITH HOUSEHOLDER OF SPANISH ORIGIN WITH COMPLETE PLUMBING FACILITIES FOR EXCLUSIVE USE AND LACKING CENTRAL HEATING EQUIPMENT 11/ 36/ 37/ 111

FOOTNOTE SECTION

- 1 Vacant seasonal/migratory units are excluded from all matrices except as noted specifically in the documentation.
- 2 The farm population is defined as persons living in rural territory on places from which \$1,000 or more of farm products were sold in 1979. In 1970, the definition included all rural places with sales of \$250 or more, plus rural places of 10 or more acres with sales of \$50 to \$249.
- 3 The count of households in sample tabulations may differ from the number of occupied housing units. This is a result of the weighting process used to minimize differences between complete

counts and sample estimates. An indication of the type of weight (population or housing) for each matrix is listed in footnote 50.

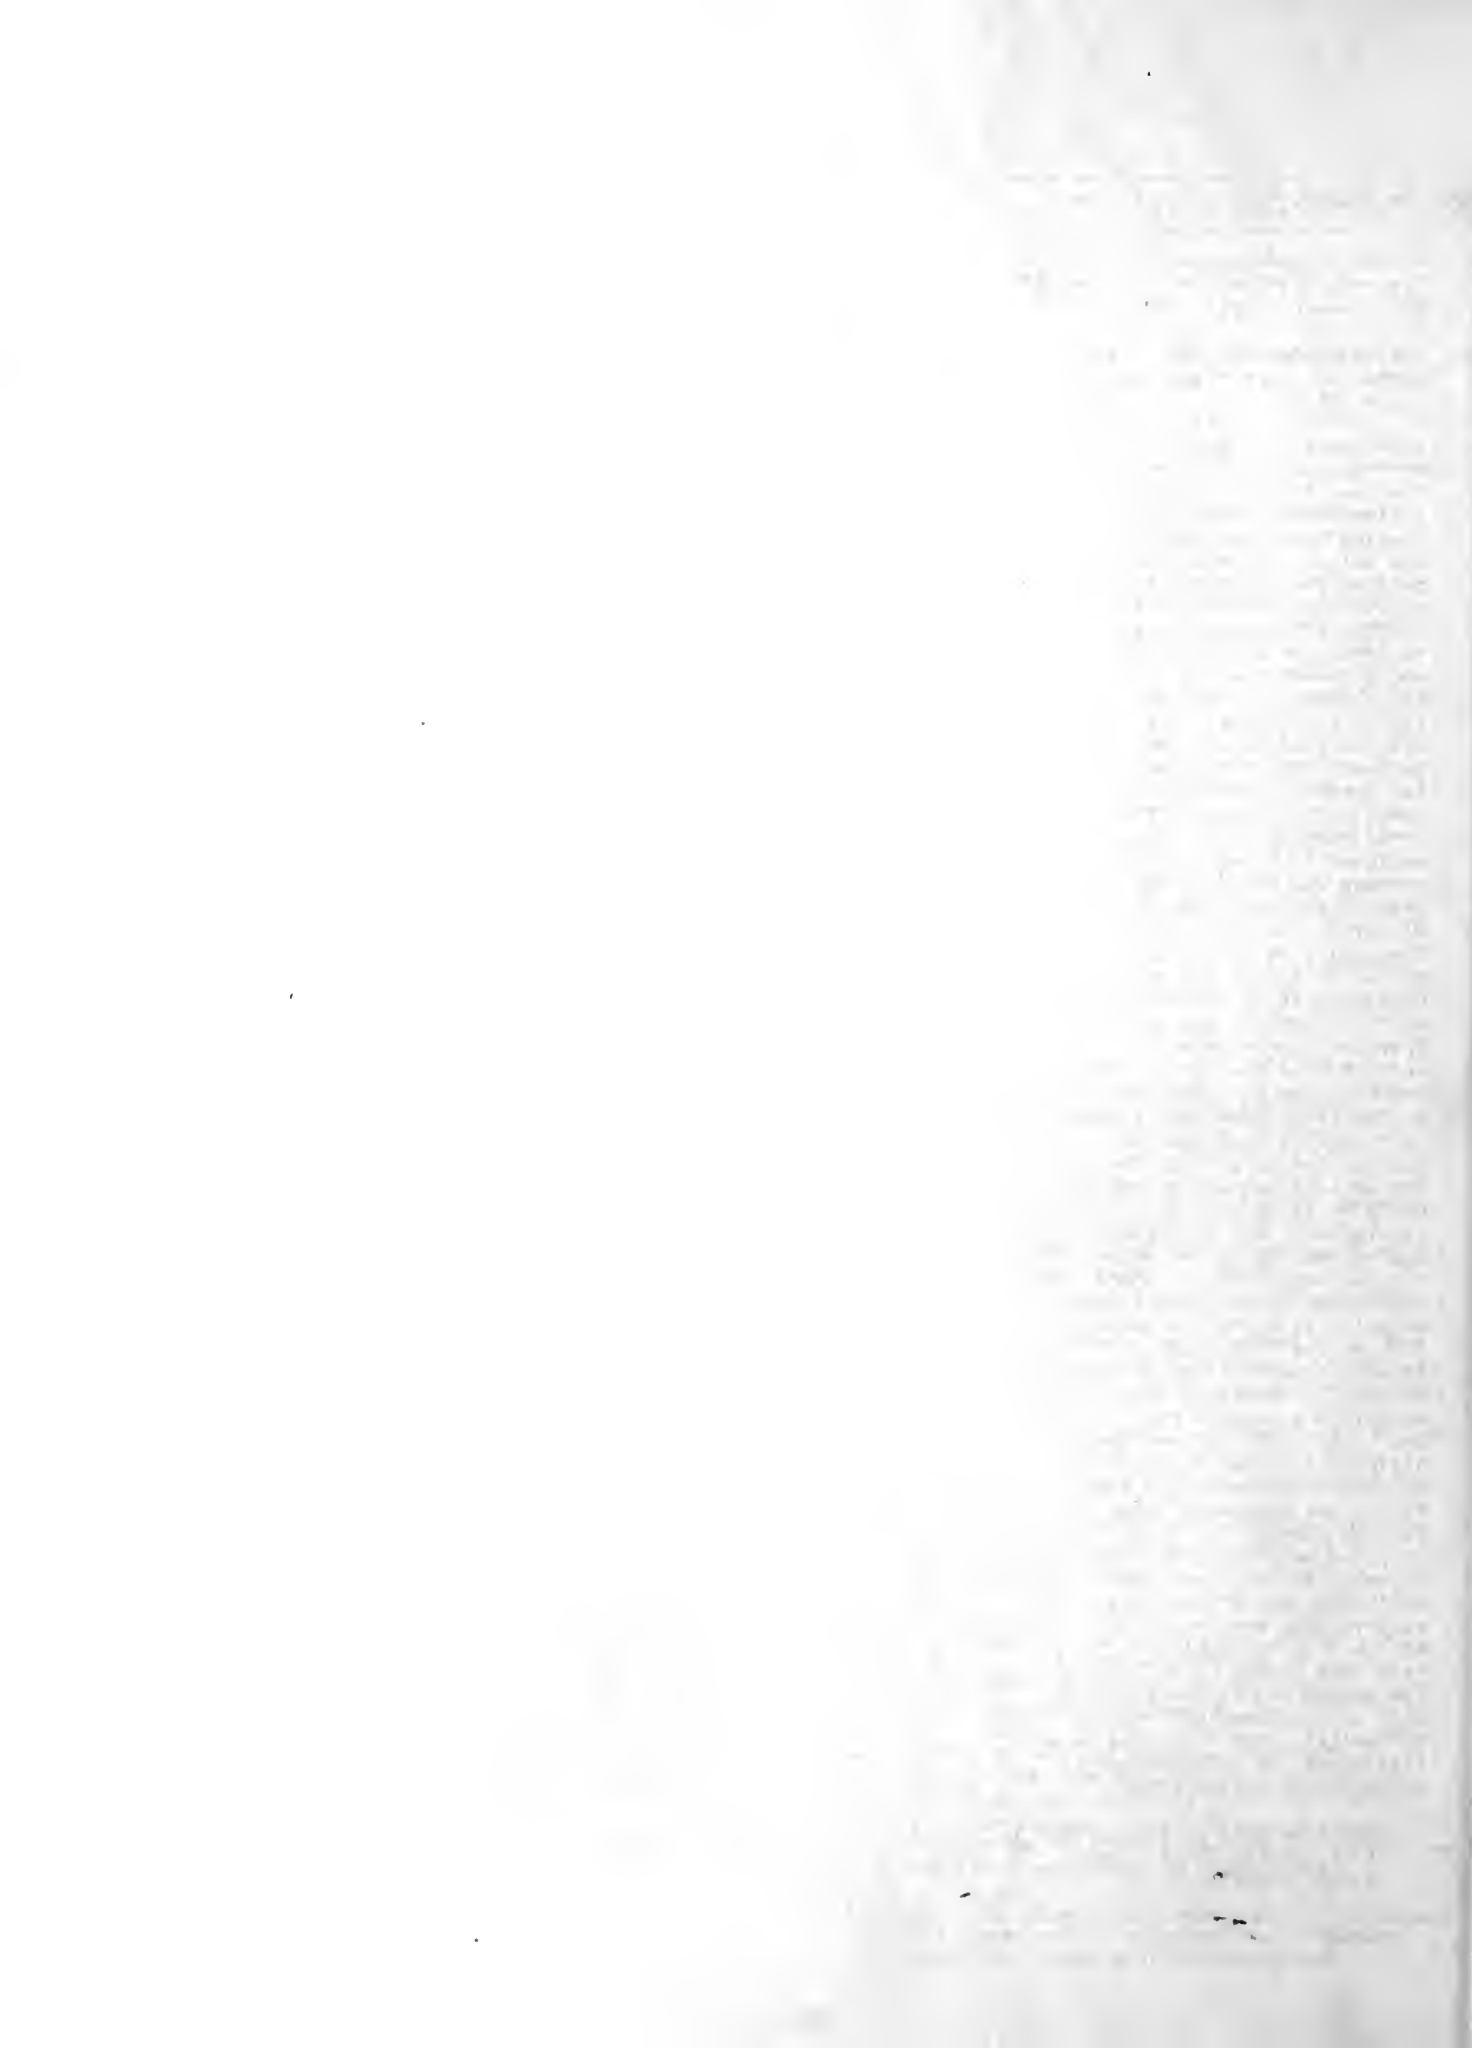

- 4 "Asian and Pacific Islander," in the 100-percent tabulations, includes "Japanese," "Chinese," "Filipino," "Korean," "Asian and Pacific Islander," "Vietnamese," "Hawaiian," "Guamanian," and "Samoan." "Asian and Pacific Islander," in sample tabulations, includes the groups listed above and those persons who have a write-in entry of an Asian or Pacific Islander group in the "Other" category.
- 5 For data tabulated on a 100-percent basis, includes all persons in the category "Other." For data tabulated from the sample, excludes those persons who have a write-in entry of an Asian and Pacific Islander group in the "Other" category.
- 6 This category refers to write-in entries of Spanish groups in the race question. Such entries are not necessarily consistent with responses in the Spanish origin question.
- 7 Tabulations of "Persons in household" based on 100-percent data by definition are the same as tabulations of "Persons in unit." The phrase "Persons in household" is used unless the matrix is stratified by a housing item such as tenure, plumbing facilities, etc., in which case, the phrase "Persons in unit" is used. Tabulations of "Persons in household" and "Persons in unit" based on sample data are not necessarily the same because of differences in the procedures used to inflate sample population and housing data.
- 8 Relatives include householder, spouse, and the questionnaire categories: "Son/daughter," "Brother/sister," "Father/mother," and "Other relative." Tabulations of "Other relatives" include all categories not shown separately in the matrix.
- 9 "Nonrelatives" include the questionnaire categories: "Roomer, boarder," "Partner, roommate," "Paid employee," and "Other nonrelative." Tabulations of "Nonrelatives" include all categories not shown separately in the matrix.

- 10 A "Child of householder" includes any son, daughter, stepchild, or adopted child of the householder. An "Own child of householder" is a never-married child under 18 years of age who is a son, daughter, stepchild, or adopted child of the householder. "Related children" include not only own children but also all other family members, regardless of marital status, who are under 18 years old, except the householder or spouse. Foster children are included in the "Nonrelative" category.

In subfamilies an "own child" is a never-married child under 18 years of age who is a son, daughter, stepchild, or adopted child of a mother in a mother-child subfamily, a father in a father-child subfamily, or either spouse in a married-couple subfamily.
- 11 Tabulations for households and families are classified by the race and Spanish origin of the householder.
- 12 This aggregate, along with relevant count, will permit the computation of a mean. For example, the aggregate value for specified owner-occupied noncondominium units will yield the mean value when divided by the count of specified owner-occupied noncondominium units, and the aggregate rooms for occupied and vacant year-round units divided by the count of occupied and vacant year-round units yields mean rooms. (See footnote 35 prior to computing mean value.)
- 13 Includes responses indicating religious groups and unclassifiable responses.
- 14 Persons may be counted more than once in this tabulation.
- 15 "Ever married" includes the questionnaire categories: "Now married," "Separated," "Widowed," and "Divorced."
- 16 "Not reported" means place of work was not reported at all or was not reported at least to the county level. One exception to this is in the treatment of New York City, where a response of "New York City" without reporting county (borough) is treated as reported. In tabulations, "reported" cases that are not reported to the area required for a specific tabulation are treated as reported but as working outside of that area. For example, for place-of-work tabulations at the place level, in a case where the place of work was reported only to the State and county levels, the response is tallied as working outside of the place.
- 17 An identified place is a place, with a population of 2,500 or more (1,000 or more in Alaska and Hawaii) generally based on 1977 population estimates, that was recognized in precensus geography. In mail enumeration areas, identified places were those recognized as of January 1, 1978; in conventional enumeration areas, identified places were those recognized as of January 1, 1979. Population estimates for identified places which incorporated after 1977 are based on the best available information.
- 18 "Public transportation" includes "Bus or streetcar," "Railroad," "Subway or elevated," and "Taxicab."
- 19 "Means of transportation to work" include "Car," "Truck," "Van," "Bus or streetcar," "Railroad," "Subway or elevated," "Taxicab," "Motorcycle," "Bicycle," "Walked only," "Worked at home," and "Other." Tabulations of "Other means" include all categories not shown separately in the matrix or not specified as "Public transportation." (See footnote 18.)
- 20 Veterans are classified by the most recent period of service, excluding peace time service.
- 21 Households may be counted more than once in this tabulation.
- 22 In this matrix, the aggregate income figures refer to the amount of income for each specific type separately (e.g., the first aggregate shows the total amount of wage or salary income received by households in 1979.)
- 23 Tabulations of poverty status exclude inmates of institutions, persons in military group quarters and in college dormitories and unrelated individuals under 15 years. (See footnote 54.)
- 24 Vacant housing units include the questionnaire categories: "For rent," "For sale only," "Rented or sold, not occupied," "Held for occasional use," and "Other vacant." Tabulations of "Other vacants" include all categories not shown separately in the matrix.

- 25 "Units in structure" includes "A mobile home or trailer," "A one-family house detached from any other house," "A one-family house attached to one or more houses," "A building for 2 families," "A building for 3 or 4 families," "A building for 5 to 9 families," "A building for 10 to 19 families," "A building for 20 to 49 families," "A building for 50 or more families," "A boat, tent, van, etc." Tabulations of "Mobile home or trailer, etc." include "A mobile home or trailer," and "A boat, tent, van, etc."
- 26 "Utility gas" includes "Gas: From underground pipes serving the neighborhood."
- 27 Fuels include "Utility gas" (see footnote 26), "Bottled, tank or LP gas," "Electricity," "Fuel oil, kerosene, etc.," "Coal or coke," "Wood," "Other fuel," and "No fuel used." Tabulations of "Other" include all categories not shown separately in the matrix.
- 28 "Vehicles" includes automobiles, trucks, and vans.
- 29 Gross rent and contract rent are tabulated for all "renter-occupied" units except one-family homes on a property of 10 or more acres. Units tabulated in the "No Cash Rent" category also exclude one-family homes on 10 or more acres. A unit classified as "No Cash Rent" in contract rent will remain no cash rent in the gross rent distribution even if the unit's occupants pay for utilities themselves. Gross rent is the sum of contract rent and utility costs. Rent asked is tabulated for "vacant-for-rent" units except one-family homes on 10 or more acres.
- 30 "Utilities" include "Electricity," "Gas," "Water," and "Oil, coal, kerosene, wood, etc."
- 31 Includes households with zero or negative income and units tabulated in the "No Cash Rent" category.
- 32 "Selected Monthly Owner Costs" is the sum of payments for real estate taxes, property insurance, utilities (see footnote 30), and regular mortgage payments.
- 33 The noncondominium value and selected monthly owner costs distributions are restricted to certain kinds of "owner-occupied" or "vacant-for-sale only" units. The following are excluded from the tabulations on value for noncondominium units:
- a. Units at an address with two or more units.
 - b. Units on 10 or more acres.
 - c. Units with a commercial establishment or medical office on the property.
 - d. Mobile homes or trailers.
- 34 Includes households with zero or negative income.
- 35 Multiply the aggregate value by \$250 to obtain the true value. The tabulation was scaled by a factor of 250 for tally purposes.
- 36 "With central heating system" includes "Steam or hot water system," "Central warm-air furnace," "Electric heat pump," "Other built-in electric units," and "Floor, wall, or pipeless furnace." "Lacking central heating system" includes "Room heaters with flue," "Room heaters without flue," "Fireplaces, stoves, or portable room heaters," and "None."
- 37 Lacking complete plumbing (facilities) for exclusive use includes: Complete plumbing (facilities) but also used by another household, some but not all plumbing facilities, or no plumbing facilities.
- 38 These counts are not available for summary levels on STF 3, file B. Zero (0) will be shown.
- 39 For language codes, see Appendix B2 in the Census of Population and Housing, 1980: Summary Tape File 3 Technical Documentation.
- 40 For ancestry codes and for definition of single and multiple ancestry, see Appendix B3 in the Census of Population and Housing, 1980: Summary Tape File 3 Technical Documentation.
- 41 For definitions of inmate status (noninstitutional and institutional and for type of group quarters codes, see Appendix B4 in the Census of Population and Housing, 1980: Summary Tape File 3 Technical Documentation.
- 42 For industry codes, see Appendix B5 in the Census of Population and Housing, 1980: Summary Tape File 3 Technical Documentation.
- 43 For occupation codes, see Appendix B6 in the Census of Population and Housing, 1980: Summary Tape File Technical Documentation.
- 44 Per capita income is calculated by dividing the aggregate income for persons 15 years and over by the total number of persons in the group.
- 45 For definition of labor force status categories, see Appendix B7 in the Census of Population and Housing, 1980: Summary Tape File 3 Technical Documentation.
- 46 Period of service includes "May 1975 or later," "Vietnam era," "February 1955 to July 1964," "Korean conflict," "World War II," "World War I," and "Other service." Tabulations of "Other" include all categories not shown separately in the matrix.
- 47 For race codes, see Appendix B1 in the Census of Population and Housing, 1980: Summary Tape File 3 Technical Documentation.

- 48 Includes cases classified as "reported" and as "not reported" for place of work.
- 49 Excludes Armenian, Georgian, Ruthenian, Ukrainian, and Belorussian.
- 50 Each sample person and housing unit was assigned a weight as the result of a complex ratio estimation procedure. Sample housing units were assigned one weight each and sample persons were assigned two types of weights. The first weight for persons applies to sample data except Place of Work, Travel Time to Work, and Migration (i.e., Residence in 1975) tabulations; this weight was assigned to all sample persons. The second weight for persons, which applies to Place of Work, Travel Time to Work, and Migration data, was assigned to those sample persons who were included in the Place of Work and Migration coding operation. These weights vary from person to person and from housing unit to housing unit, but on the average they are approximately equal to the inverse of each records sample selection probability. The tabulations in this file are based on summing the weights of the appropriate persons or housing units relating to the tabulation. For specified aggregates, indicated below, the characteristic data are multiplied by the weight; for example, in aggregate income for persons the amount of income is multiplied by the weight. In medians, the weights are brought to bear indirectly through the distribution used to calculate the measure. For family and household tabulations (population type), only the weights of the householder are used. For subfamily tabulations, the weights used are those assigned to the subfamily reference person (i.e., the person who is the equivalent of a householder for the subfamily). The following is a listing of the weights used in producing each tabulation:
- Persons weights -- tabulations 1, 7, 8, 12-17, 19, 22, 24-67, 81-85, and 90-95.
- Note: Tabulations 31, 60, 64, 83, and 84 are aggregates. Tabulations 34-39, 41, and 42 use the Place of Work, Travel Time to Work, and Migration weight exclusively. Tabulation 42 is an aggregate. Tabulations 82 and 85 are derived measures.
- Householder (person) weights -- tabulations 9, 10, 18, 20, 21, 68-80, and 86-89.
- Note: Tabulations 70, 72, 77, 78, and 80 are aggregates. Tabulations 69 and 74 are derived measures.
- Subfamily reference person weight -- tabulation 23.
- Housing Unit Weights -- 4, 11, and 96-150.
- Note: Tabulations 100, 101, 104, 128, 129, 137, 140, and 141 are aggregates. Tabulations 127 and 134 are derived measures.
- Unweighted Counts -- Tabulations 2, 3, 5, and 6.
- Note: Tabulations 2 and 5 are actual (unit) counts of persons and housing units in the sample. Tabulations 3 and 6 are 100-percent counts of persons and housing units.
- 51 Includes females who are a householder, a spouse of householder, a mother in a mother-child subfamily, or a female spouse in a married-couple subfamily.
- 52 Not used.
- 53 Code ranges may include codes which are not used.
- 54 "Unrelated Individuals" include nonrelatives in family households, persons in nonfamily households, and noninmates in group quarters.
- 55 The term "cell not used" indicates that a data item or "cell" contains no data.
- 56 Not used

PA108. WORK STATUS IN 1979 (2) [21]

Universe: Persons 16 Years And
Over For Whom Work Status In 1979
Was Not Allocated

Worked in 1979
Did not work in 1979

PA109. WEEKS WORKED IN 1979 (3) [31]

Universe: Persons 16 Years And Over
Who Worked In 1979 For Whom Work
Status In 1979 And Weeks Worked In
1979 Were Not Allocated

50 to 52 weeks
27 to 49 weeks
1 to 26 weeks

PA110. USUAL HOURS WORKED PER WEEK IN 1979
(2) [21]

Universe: Persons 16 Years And Over
Who Worked In 1979 For Whom Work
Status In 1979 And Usual Hours Worked
Per Week In 1979 Were Not Allocated

Usually worked 35 or more
hours per week
Usually worked 1 to 34 hours
per week

PA111. LABOR FORCE STATUS IN 1979 AND
UNEMPLOYMENT IN 1979 (4) [41]

Universe: Persons 16 Years
And Over For Whom Unemployment
In 1979 Was Not Allocated

With unemployment in 1979:
Unemployed 1 to 4 weeks
Unemployed 5 to 14 weeks
Unemployed 15 or more weeks
No unemployment in 1979

PA112. WORK DISABILITY STATUS (3) 74/ [31]

Universe: Noninstitutional
Persons 16 To 64 Years For
Whom Work Disability Status
Was Not Allocated 33/

With a work disability:
Prevented from working
Not prevented from working
No work disability

PA113. AGE (2) BY PUBLIC TRANSPORTATION
DISABILITY STATUS (2) [41]

Universe: Noninstitutional Persons 16
Years And Over For Whom Public Trans-
portation Disability Status Was Not
Allocated 33/

16 to 64 years:
With a public transporta-
tion disability
No public transportation
disability

65 years and over:
(Repeat public transportation
disability status)

8/ 9/

Not attending college

Different State:

(Repeat College Attendance and
Household Relationship in 1980)

PB34. PLACE OF WORK (22) 1221

Universe: Workers 16 Years And Over
10/

The first 20 data items of this matrix locate workers within 20 specified areas (i.e., work places). These work places are uniquely defined for each county equivalent (minor civil division (MCD) in New England). Item 21, "Other work places," is a tally of all workers living in the summary area of residence whose work place is somewhere other than one of those included in items 1 through 20. Item 22, "Place of work not reported," is a tally of workers coded to "U.S., State not reported," "State only" or "Not reported."

table continued on next page

Data items 1 through 21 are defined consistently for any summary area of residence within a particular county or county equivalent (or MCD in New England) such as incorporated places (within these areas), but are not necessarily defined consistently from one such area to another. Therefore, these data are not normally meaningful for summary areas of residence larger than the county or county equivalent (MCD in New England). One exception is SMSAs where the 1st "n" data items within the SMSA are consistently defined. Item 22 is meaningful for all summary areas of residence. The 20 specific work places defined for a county, county equivalent, or MCD in New England will be documented in a separate set of reference lists, available from the Census Bureau. In the tabulations, "n" will vary from SMSA to SMSA and will be documented along with the reference list. (See Supplement 1.)

<p>HB85. UNITS IN STRUCTURE (10) BY GROSS RENT (10) 11001</p>		<p>FOOTNOTE SECTION</p> <p>1 The count of households in sample tabulations may differ from the number of occupied housing units. This is a result of the weighting process used to minimize differences between complete counts and sample estimates. An indication of the type of weight (population or housing) for each matrix is listed in footnote 40.</p> <p>2 "Asian and Pacific Islander," in 100-percent tabulations, includes "Japanese," "Chinese," "Filipino," "Korean," "Asian Indian," "Vietnamese," "Hawaiian," "Guamanian," and "Samoan." "Asian and Pacific Islander," in sample tabulations, includes the groups listed above and those persons who have a write-in entry of an Asian or Pacific Islander group in the "Other" category.</p>

- 3 For data tabulated on a 100-percent basis, includes all persons in the category "Other." For data tabulated from the sample, excludes those persons who have a write-in entry of an Asian and Pacific Islander group in the "Other" category.
- 4 Vacant seasonal/migratory units are excluded from all matrices except as noted specifically in the documentation.
- 5 See footnote 68.
- 6 Persons may be counted more than once in this tabulation.
- 7 A "Child of householder" includes any son, daughter, stepchild, or adopted child of the householder. An "Own child of householder" is a never-married child under 18 years of age who is a son, daughter, stepchild, or adopted child of the householder. "Related children" include not only own children but also all other family members, regardless of marital status, who are under 18 years old, except the householder or spouse. Foster children are included in the "Nonrelative" category.

In subfamilies an "own child" is a never-married child under 18 years of age who is a son, daughter, stepchild, or adopted child of a mother in a mother-child subfamily, a father in a father-child subfamily, or either spouse in a married-couple subfamily.
- 8 Relatives include householder, spouse, and the questionnaire categories: "Son/daughter," "Brother/sister," "Father/mother," and "Other relative." Tabulations of "Other relatives" include all categories not shown separately in the matrix.
- 9 "Nonrelatives" include the questionnaire categories: "Roomer, boarder," "Partner, roommate," "Paid employee," and "Other nonrelative." Tabulations of "Nonrelatives" include all categories not shown separately in the matrix.
- 10 For definition of labor force status categories, see Appendix C7 in the Census of Population and Housing, 1980: Summary Tape File 4 Technical Documentation.
- 11 Tabulations of poverty status exclude inmates of institutions, persons in military group quarters and in college dormitories and unrelated individuals under 15 years. (See also Footnotes 59 and 71.)
- 12 This aggregate, along with the relevant count, will permit the computation of a mean. For example, the aggregate value for specified owner-occupied noncondominium units will yield the mean value when divided by the count of specified owner-occupied noncondominium units, and the aggregate rooms for occupied and vacant year-round units divided by the count of occupied and vacant year-round units yields mean rooms. (See footnote 52 prior to computing mean value or price asked.)
- 13 The farm population is defined as persons living in rural territory on places from which \$1,000 or more of farm products were sold in 1979. In 1970, the definition included all rural places with sales of \$250 or more, plus rural places of 10 or more acres with sales of \$50 to \$249. Farm status is not applicable to persons in group quarters. If persons in group quarters are included in a matrix, they are treated as nonfarm if in a rural area.
- 14 "Living with two parents" is defined as an own child in a married-couple family or subfamily.
- 15 Tabulations of "Persons in household" based on 100-percent data by definition are the same as tabulations of "Persons in unit." The phrase "Persons in household" is used unless the matrix is stratified by a housing item such as tenure, plumbing facilities, etc., in which case, the phrase "Persons in unit" is used. Tabulations of "Persons in household" and "Persons in unit" based on sample data are not necessarily the same because of differences in the procedures used to inflate sample population and housing data.
- 16 "Ever married" includes the questionnaire categories: "Now married," "Separated," "Widowed," and "Divorced."
- 17 In this matrix, persons are classified by the race, Spanish origin, and ancestry of the householder (or subfamily reference person).
- 18 Includes persons 5 to 20 years old, not in universe for activity 5 years ago.
- 19 "Not reported" means place of work was not reported at all or was not reported at least to the county level. One exception to this is in the treatment of New York City, where a response of "New York City" without reporting county (borough) is treated as reported. In tabulations, "reported cases" that are not reported to the area required for a specific tabulation are treated as reported but as working outside of that area. For example, for place of work tabulations at the place level, in a case where the place of work was reported only to the State and county levels, the response is tallied as working outside of the place.

- 20 An identified place is a place, with a population of 2,500 or more (1,000 or more in Alaska and Hawaii) generally based on 1977 population estimates, that was recognized in precensus geography. In mail enumeration areas, identified places were those recognized as of January 1, 1978; in conventional enumeration areas, identified places were those recognized as of January 1, 1979. Population estimates for identified places which incorporated after 1977 are based on the best available information.
- 21 "Public transportation" includes "Bus or streetcar," "Railroad," "Subway or elevated," and "Taxicab."
- 22 "Year round" means 50 to 52 weeks; "full time" means usually 35 or more hours per week.
- 23 Veterans are classified by the most recent period of service, excluding peace time service, in cases where there are multiple responses to the questionnaire item.
- 24 Households may be counted more than once in this tabulation.
- 25 In this matrix, the aggregate income figures refer to the amount of income for each specific type separately (e.g., the first aggregate shows the total amount of wage or salary income received by households in 1979).
- 26 Persons 15 years old are, by definition, classified as "did not work in 1979."
- 27 "Aggregate income deficit" is the sum of the individual differences between the poverty level (or 125 percent of the poverty level and total income for families or unrelated individuals below poverty level (or 125 percent of the poverty level)).
- 28 Geographic labels used are for the convenience of tabulation classification and do not adhere to a strict geographical or cultural definition. For ancestry codes and for definition of single and multiple ancestry, see Appendix C3 in the Census of Population and Housing, 1980: Summary Tape File 4 Technical Documentation.
- 29 Excludes Armenian, Georgian, Ruthenian, Ukrainian, and Belorussian.
- 30 Includes responses indicating religious groups and unclassifiable responses.
- 31 For country of birth codes, see Appendix C8 in the Census of Population and Housing, 1980: Summary Tape File 4 Technical Documentation.
- 32 For language codes, see Appendix C2 in the Census of Population and Housing, 1980: Summary Tape File 4 Technical Documentation.
- 33 For definition of inmate status (noninstitutional and institutional) and for type of group quarters codes, see Appendix C4 in the Census of Population and Housing, 1980: Summary Tape File 4 Technical Documentation.
- 34 For occupation codes, see Appendix C6 in the Census of Population and Housing, 1980: Summary Tape File 4 Technical Documentation.
- 35 For industry codes, see Appendix C5 in the Census of Population and Housing, 1980: Summary Tape File 4 Technical Documentation.
- 36 For race codes, see Appendix C1 in the Census of Population and Housing, 1980: Summary Tape File 4 Technical Documentation.
- 37 Includes cases classified as "reported" and as "not reported" for place of work.
- 38 "Unearned income" includes "interest, dividend, or net rental income," "Social Security income," "public assistance income," and "all other income."
- 39 Per capita income is calculated by dividing the aggregate income for persons 15 years and over by the total number of persons in the group.
- 40 Each sample person and housing unit was assigned a weight as the result of a complex ratio estimation procedure. Sample housing units were assigned one weight each and sample persons were assigned two types of weights. The first weight for persons applies to sample data except Place of Work, Travel Time to Work, and Migration (i.e., Residence in 1975) tabulations; this weight was assigned to all sample persons. The second weight for persons, which applies to Place of Work, Travel Time to Work, and Migration data, was assigned to those sample persons who were included in the Place of Work and Migration coding operation. These weights vary from person to person and from housing unit to housing unit, but on the average they are approximately equal to the inverse of each records sample selection probability. The tabulations in this file are based on summing the weights of the appropriate persons or housing units relating to the tabulation. For specified aggregates, indicated below, the characteristic data are multiplied by the weight; for example, in aggregate income for persons the amount of income is multiplied by the weight. In medians, the weights are brought to bear indirectly through the distribution used to calculate the measure. For family and household tabulations (population type), only the weights of the householder are used. For subfamily tabulations, the weights used are those assigned to the subfamily reference person (i.e., the person who is the equivalent of a householder for the subfamily). The following is a listing of the weights used in producing each tabulation:
- Person weights -- tabulations PA1, PA7, PA10-13, PA15-22, PA25, PA27-44, PA49-67, PA69-75, PA85-96, PA100, PA102-114, PA117, PA118, PA134-141, PA143, PA144, PA153-156, PA158-161, PA163-167, PA174, PA176, PA177, PA182-184, HA19, HA103, HA111-113, PB1, PB4-6, PB9-17, PB19, PB21-25, PB39, PB40, PB43-51, PB55-63, PB66-70, PB91-101, PB104, PB105, PB107, PB109, PB111, PB114-119, HB3, HB8, and HB58.

Place of Work and Migration (person) weights -- tabulations PA45-48, PA68, PA97-99, PA101, PA162, PB26-38, PB41, and PB42.

Subfamily reference person weight -- tabulation PB20.

Householder (person) weights -- tabulations PA8, PA9, PA14, PA23, PA24, PA26, PA76-84, PA115, PA116, PA119-133, PA142, PA145-152, PA168, PA170, PA171, PA173, PA178-181, PA191, HA104, HA105, PB2, PB3, PB7, PB8, PB18, PB52-54, PB64, PB65, PB71-91, PB102, PB103, PB106, PB108, PB110, PB112, PB113, and PB120.

Housing weights -- tabulations PA4, PA188-190, HA1-18, HA20-31, HA33-100, HA102, HA114-116, HB1, HB2, HB4-7, HB9-13, HB15-57, and HB59-86.

Unweighted count -- PA2, PA3, PA5, PA6, PA185, PA186, and HA106-110.

Not used -- PA157, PA169, PA172, PA175, PA187, HA32, HA101, and HB14.

41 Code ranges may include codes which are not used.

42 Excludes persons or households with a negative ratio of income type to total income.

43 Vacant housing units include the questionnaire categories: "For rent," "For sale only," "Rented or sold, not occupied," "Held for occasional use," and "Other vacant." Tabulations of "Other vacants" include all categories not shown separately in the matrix.

44 "With central heating system" includes "Steam or hot water system," "Central warm-air furnace," "Electric heat pump," "Other built-in electric units," and "Floor, wall, or pipeless furnace." "Lacking central heating system" includes "Room heaters with flue," "Room heaters without flue," "Fireplaces, stoves, or portable room heaters," and "None." "Other means" includes all categories not shown separately in the matrix.

45 For "Stories in Structure," an attic or basement is counted as a story only if it has any finished rooms for living purposes.

46 Includes "One-family house detached from any other house," "One-family house attached to one or more houses," "Building for 2 families," "Building for 3 or 4 families," "Mobile home or trailer," and "Boat, tent, van, etc."

47 "Units in structure" includes "A mobile home or trailer," "A one-family house detached from any other house," "A one-family house attached to one or more houses," "A building for 2 families," "A building for 3 or 4 families," "A building for 5 to 9 families," "A building for 10 to 19 families," "A building for 20 to 49 families," "A building for 50 or more families," "A boat, tent, van, etc." Tabulations of "Mobile home or trailer, etc." include "A mobile home or trailer" and "A boat, tent, van, etc." Vacant units do not include a boat, tent, van, etc.

48 "Vehicles" includes automobiles, trucks, and vans.

49 "Utility gas" includes "Gas: From underground pipes serving the neighborhood."

50 Not used.

51 Value and price asked are tabulated differently for noncondominium (referred to as "specified") and condominium units.

The noncondominium value distribution is restricted to certain kinds of "owner-occupied" units; the noncondominium price asked distribution is restricted to certain kinds of "vacant-for-sale only" units. The noncondominium selected monthly owner costs distribution is restricted to certain kinds of "owner-occupied" units. The following are excluded from the tabulations on value, price asked, and selected monthly owner costs for noncondominium units:

- a. Units in a structure with two or more units
- b. Units on 10 or more acres
- c. Units with a commercial establishment or medical office on the property
- d. Mobile home or trailer

The condominium value distribution is tabulated for all "owner-occupied" condominium units; the condominium price asked distribution is tabulated for all "vacant-for-sale only" condominium units. Selected monthly owner costs are not accumulated for condominium units.

52 Multiply the aggregate value and price asked by \$250 to obtain the true value or price asked. The tabulation was scaled by a factor of 250 for tally purposes.

53 "Selected Monthly Owner Costs" is the sum of payments for real estate taxes, property insurance, utilities (see footnote 56), and regular mortgage payments.

- 54 Gross rent and contract rent are tabulated for all "renter-occupied" units except one-family homes on a property of 10 or more acres. Units tabulated in the "No Cash Rent" category also exclude one-family homes on 10 or more acres. A unit classified as "No Cash Rent" in contract rent will remain no cash rent in the gross rent distribution even if the unit's occupants pay for utilities themselves. Gross rent is the sum of contract rent and utility costs. Rent asked is tabulated for "vacant-for-rent" units except one-family homes on 10 or more acres.
- 55 Includes households with zero or negative income and units tabulated in the "No cash rent" category when tabulating specified renter-occupied housing units.
- 56 "Utilities" includes "Electricity," "Gas," "Water," and "Oil, coal, kerosene, wood, etc."
- 57 "Monthly Residential Energy Costs" includes the cost of any of the utility items listed in footnote 56 except water.
- 58 "Selected Characteristics" includes any of the following characteristics of the householder or the householder's living quarters: "Below poverty level," "Lacking complete plumbing for exclusive use," "1.01 or more persons per room," "Lacking central heating system," "No vehicle available," and "Structure built 1939 or earlier."
- 59 Poverty status is determined for families and unrelated individuals. The poverty status assigned to a family is also assigned to each family member. Unrelated individuals are each assigned poverty status according to their individual incomes. Occupied housing units are classified below the poverty level when the total 1979 income of the family or the nonfamily householder is below the appropriate poverty threshold. The income of persons living in a housing unit who are not related to the householder is not considered when determining the poverty status of an occupied housing unit. Tabulations of poverty status exclude inmates of institutions, persons in military group quarters and in college dormitories, and unrelated individuals under 15 years.
- 60 Lacking complete plumbing (facilities) for exclusive use includes: Complete plumbing (facilities) but also used by another household, some but not all plumbing facilities, or no plumbing facilities.

61 "Specified number of selected characteristics" includes any or all of these characteristics listed in footnote 58.

62 A housing unit is classified as having "Selected Conditions" if any of the following situations exist:

a. Lacking complete plumbing for exclusive use as in footnote 60.

-OR-

b. 1.01 or more persons per room.

-OR-

c. In specified renter-occupied housing units, 54/ gross rent is 30 percent or more of household income.

-OR-

d. In specified owner-occupied housing units, 51/ the structure was built in 1939 or earlier, and is below the following values by census division and SMSA residence:

Census Division	Inside SMSA	Outside SMSA
NE (1)	\$30,000	\$25,000
MA (2)	\$30,000	\$25,000
ENC (3)	\$27,500	\$22,500
WNC (4)	\$27,500	\$22,500
SA (5)	\$25,000	\$20,000
ESC (6)	\$25,000	\$20,000
WSC (7)	\$25,000	\$20,000
MT (8)	\$35,000	\$25,000
PAC (9)	\$35,000	\$25,000

All other occupied housing units are tabulated "Without Selected Conditions."

63 Not used.

64 Not used.

65 Complete kitchen facilities are all of the following: A range or cooking stove for this household only, a sink with piped water for this household only, and a mechanical refrigerator for this household only.

66 The "Value-Household Income in 1979 Ratio" is computed by dividing the Value of the specified owner-occupied noncondominium housing unit by the household income of the occupants.

67 Tabulations of "One-family House" include "A one-family house detached from any other house" and "A one-family house attached to one or more houses."

- 68 This category refers to write-in entries of Spanish origin in the race question. Such entries are not necessarily consistent with responses in the Spanish origin question. For definition of race codes, see Appendix C1 in the Census of Population and Housing, 1980: Summary Tape File 4 Technical Documentation.
- 69 These counts are not available for rural-farm portions of any geographic area. Zero (0) will be shown.
- 70 Housing units may be counted more than once in this tabulation.
- 71 "Unrelated individuals" include non-relatives in family households, persons in nonfamily households, and non-inmates in group quarters.
- 72 Persons 15 years old are, by definition, classified as "not in labor force."
- 73 "Private wage and salary worker" includes "Employee of private company, business, or individual, for wages, salary, or commissions" and "Self-employed in own business, professional practice or farm - own business incorporated."
- 74 "Work disability status" is based on responses to the questionnaire item: "Limits the kind or amount of work this person can do at a job."
- 75 The initial interval for distributions of household, family, or unrelated individual income include the following:
- units with appropriate net positive amounts (e.g., \$1 to \$2,499)
 - units with no income
 - units with positive and negative dollar amounts netting to "0"
 - units with negative total income
- 76 Period of service includes "May 1975 or later," "Vietnam era," "February 1955 to July 1964," "Korean conflict," "World War II," "World War I," and "Other service." Tabulations of "Other" include all categories not shown separately in the matrix.
- 77 "Means of transportation to work" include "Car," "Truck," "Van," "Bus or streetcar," "Railroad," "Subway or elevated," "Taxicab," "Motorcycle," "Bicycle," "Walked only," "Worked at home," and "Other." Tabulations of "Other means" include all categories not shown separately in the matrix or not specified as "Public transportation." (See footnote 21.)
- 78 Tabulations of "Public assistance income" include responses to the questionnaire item: "Supplemental Security (SSI), Aid to Families with Dependent Children (AFDC), or other public assistance or public welfare payments." Tabulations of "All other income" include responses to the questionnaire item: "Unemployment compensation, veterans' payments, pensions, alimony or child support, or any other sources of income received regularly."
- 79 Includes persons living in the same house in 1975 as well as persons living in a different house in the United States in 1975.
- 80 "Loss" in distributions of household, family, or unrelated individual income includes units with positive and negative dollar amounts netting to "0" and units with negative total income.
- 81 "Self employed" includes only "Self employed in own business, professional practice or farm - Own business not incorporated."
- 82 "Self employed" for occupation tabulations that show "salaried," "self employed" subgroups, include "Self employed in own business, professional practice, or farm - Own business not incorporated," and "Working without pay in family business or farm."
